SUMMARY

Freelance graphic designer and video editor with 6+ years of experience producing visual content and branded media, including five years as an in-house designer and video creator for a government organization. Builds digital products end-to-end by pairing design craft with AI-assisted development — directing the creation of web apps, native macOS/iOS apps, and client-facing templates from concept to release. Comfortable working independently with international clients in English.

EXPERIENCE

Social Media Manager & Content Designer — Pangkalan TNI AL Sangatta (Lanal Sangatta) Sep 2021 – Jul 2026

- Produced nearly all Instagram feed content for @lanal_sangatta over the period — end-to-end coverage, photo/video editing, copywriting, and layout design.
- Grew the account to roughly 2,500 followers over the five-year period, with average per-video engagement consistently in the thousands (comment counts were filtered and limited under the account's official policy, independent of content performance).
- Adapted centralized campaign materials issued by higher command into Instagram-ready formats and layouts.

Freelance Graphic Designer & Video Editor — Self-employed 2019 – Present

- Maintained a steady freelance workload averaging at least 2 projects per month since 2019, delivering branding, video editing, and digital design for independent clients — including website templates, marketing materials, and social content.
- Designed and delivered the SwiftLink Web Template, a multi-page property-website template with booking and live-chat features, for a client engagement.
- Produced branded marketing materials (A3 infographic + A5 flyer) for an Australian coffee shop client, using custom SVG illustration work.
- Video demo reel and full portfolio: khincreator.com and youtube.com/@khinccofficial

Book Cover Designer — Prabu21 Book Publisher, Malang Oct 2020 – Jan 2021

- Designed book covers for publisher releases.

SELECTED PROJECTS (AI-DIRECTED PRODUCT DESIGN)

- khincreator.com** — Personal portfolio site; designed the site and its visual system.
- Kampung Pos: 100 Surat Terakhir** — Browser game (tiny-planet letter delivery, Three.js/WebGL); led concept, world and visual design, and creative direction using AI-assisted development; public beta released.
- CodeQuest** — Indonesian-language educational programming game; directed a full redesign (story, visuals, bilingual ID/EN release) using AI-assisted development; live on GitHub Pages and itch.io.
- MacVis / Manual Webcam Stable** — macOS camera-control app; directed feature design and UX using AI-assisted development; released to closed testers.
- Belajar Ceria PAUD-TK** — Educational web app for early-childhood learning (ages 5–7); designed and directed development for a real classroom use case.
